Shawnee Construction & Engineering, Inc. Achieves Bright Green Business Certification.

January 3, 2011, Fort Wayne, IN: Shawnee Construction & Engineering, Inc. was recently certified as a Northeast Indiana Sustainable Business Council (NISBC) Bright Green Certified Business.

The NISBC was formed through a partnership among non-profit, for-profit and government entities when The City of Fort Wayne handed over their award-winning Green City Business Program to expand and adapt and better serve business needs with programs that can be aligned with Regional Economic Development Efforts. The City still plays a large supportive role and sees this partnership as one that will not only benefit the businesses in Northeast Indiana, but all residents who call this area home.

The NISBC receives membership from businesses and organizations interested in implementing sustainable business practices, in such areas as solid waste reduction, energy conservation, water conservation, pollution prevention, educational outreach, and employee wellness. NISBC believes “Through smarter environmental management the present generation can satisfy its needs without compromising the next generation’s ability to do the same including air, water, and land pollution prevention”. Our children and grandchildren are the ultimate benefactors as our generation practices stewardship.

Shawnee Construction & Engineering, Inc., a leader in the field of construction services, is a family-owned and operated business founded in 1968. Built on the philosophy that sound practices and long-term relationships are essential to building sound structures, the company combines old-fashioned integrity, hard work, and dedication with state-of-the-art technology to provide the highest levels of quality, value, and service.

Shawnee Construction & Engineering, Inc., specializes in general construction, commercial, industrial, medical, education and retail construction services as well as construction maintenance work.
